

CONTENTS

VEGETABLE GROWING			
Cod nou	Titlu	Autori	Nr. pag.
VG 01	The influence of the cultivar and density on the simultaneous fructification at cucumber cornichon type for mechanical harvest reasons	Atanasiu N.	10-13
VG 02	Seeds position and seeds tegument particularities influences on emergence of melons	Atanasiu N., Georgescu Mihaela, Luchian Viorica, Crețu Geanina, Delian Elena	14-17
VG 03	Research concerning some cabbage varieties behaviour in green house in the west plain conditions	Berar V., Poșta Gh.	18-21
VG 04	A pedological and hydrological study on the area of the r. I.V.F.G. – Vidra (Romania)	Cenușă Maria	22-25
VG 05	A study concerning the climatic traits specific to the r. I.V.F.G. – Vidra (Romania)	Cenușă Maria	26-29
VG 06	Technological link to improve the physical characteristics of the nutritive cubes used to transplant vegetables seedling	Chivulete S., Luchian Viorica, Morărescu V., Ciofu Ruxandra, Gapșa Fl., Curtescu Maria, Atanasiu N.	30-33
VG 07	Some aspects of the scientific studies carried out at the department of Vegetable crops Floriculture and Landscape Architecture	Ciofu Ruxandra	34-37
VG 08	The influence of artificial aero-ionization upon cucumber seed germination and transplant growth	Ciofu Ruxandra, Petra O., Enache L., Dobrin Elena	38-41
VG 09	By dripping irrigation effect on yield and management water at cucumbers in solarium	Curcafa Camelia, Atanasiu N., Popescu V., Luchian Viorica	42-43
VG 10	Research regarding the <i>in vitro</i> germination of some chicory hybrids (<i>Cichorium intybus L.</i>)	Diaconescu Oana, Petrescu C.	46-49
VG 11	Researches concerning the use of the axillary shoots to obtain tomato transplants	Draghici Elena, Stroe Elena	50-53

VG 12	The influence of substratum composition and volume on greenhouse tomatoes grown on organic substrata	Ganea Rodica, Indrea D., Apahidean Al.S., Apahidean Maria, Măniuțiu D.	54-57
VG 13	The behaviour of some garden bean varieties in Bărăgan field	Glăman Gh., Margine A., Tudor Z.	58-63
VG 14	On the influence of Kemira-type fertilising on the quantitative and qualitative levels of tomato yields in unheated solaria	Horgoș A., Oglejan Doina, Kondor F., Becherescu Alexandra	64-67
VG 15	The water PI influence on cucumber nursery transplant growing	Hoza Gheorghița	68-71
VG 16	Effect of seeds treatment with antifungal vegetal extracts on tomato seedling	Luchian Viorica, Petre Irina, Cristea Stelica, Jurcoane Ștefana, Atanasiu N., Boca Elena, Mateescu Rodica	72-75
VG 17	Research concerning the possibilities to increase cucumber yield	Luchian Viorica, Popescu V., Pamfil Maria, Jurcoane Ștefana, Atanasiu N., Delian Elena	76-79
VG 18	Management of integrated control of the weeds in onion direct seed	Miron V.	80-83
VG 19	Researches regarding the use of fertilization system and different substrates on eggplants culture on sacks	Popescu V., Neață Gabriela, Drăghici Elena	84-87
VG 20	The study of variety and sowing period influence on the production of green (raw) pods at garden beans	Tudor Zoia, Margină A.	88-93

FLORICULTURE AND DENDROLOGY

Cod nou	Titlu	Autori	Nr. pag.
F&D 01	Formation and anatomy of adventitious roots in <i>Kolkwitzia amabilis</i> cuttings	Dumitrașcu Monica	94-97
F&D 02	Some researches concerning the influence of pH to flowering on specie <i>Lisianthus russelianus</i> Hook.	Petra Sorina, Zaharescu Mihaela, Davidescu Velicica	98-101
F&D 03	Studies concerning the efficiency of the in vitro micropropagation upon the production of the <i>Polyanthes tuberosa</i> L. Bulbs	Toma Fl.	102-105
F&D 04	Studies concerning the correlation between the ecological factors and the growing and the development of the <i>Polyanthes tuberosa</i> L. Plants	Șelaru Elena, Petra Sorina, Zamfir Vâșca Diana	106-109
F&D 05	Studies on propagation capacity and after planting evolution of <i>Passiflora caerulea</i> plants	Zamfir Vâșcă Diana, Goraș Mădălina	110-113

FRUIT GROWING

Cod nou	Titlu	Autori	Nr. pag.
FG 01	Highbush blueberry culture a solution to enhance the value of the land with acid soils and lower productivity in the high hills area near the mountains	Bădescu C.	114-117
FG 02	35 years of research in the field of the horticultural products marketing	Bogoescu M., Bibicu Miruna, Popescu I., Catană Luminița	118-121
FG 03	The behaviour of same columnar apple hybrids, genetic resistant an engrafting on the liberty rootstock	Cepoiu N., Păun C., Atudosiei Nicole, Ionescu N., Apostol Dragoș	122-125
FG 04	<i>Prunus tomentosa</i> , a sweet cherry species for the orchard with high density	Cepoiu N., Păun C., Cepoiu Andreea-Loreta, Vîlcu Roxana	126-129

FG 05	The hybrids sweet cherry x cherry, potential rootstock	Cepoiu N., Stănică Fl., Păun C., Sultan Mihaela, Stanciu Iuliana, Mămularu Daniela	130-133
FG 06	Valuable apple tree varieties – principal source of germoplasma	Gradinariu G., Istrate M., Dascalu M.	134-137
FG 07	Researches regarding the mulching material influence on the production and quality at strawberry	Hoza D.	138-141
FG 08	The effect of low spring temperature on apricot and peach trees in Bucharest zone	Hoza D., Ciolacu Daniela, Asănică A.	142-145
FG 09	Preliminary researches regarding parameters crown reduce after summer pruning at apricot trees	Hoza D., Ciolacu Daniela, Asănică A.	146-149
FG 10	Some achievements in crop technologies for the fruit trees of Romania	Iancu M., Isac I.	150-157
FG 11	Methods and techniques from management of the horticult companies	Manea Victoria, Stoian Elena, Mărcuță Alina	158-161
FG 12	Modalities of financing agriculture enterprise	Manea Victoria, Stoian Elena, Mărcuță Alina Mărcuț Liviu	162-165
FG 13	Business plan of the firm	Manea Victoria, Stoian Elena, Mărcuță Alina, Mărcuță Liviu	166-169
FG 14	Scientific research results in fruit growing and viticulture in western Romania	Nedelea G., Drăgănescu E., Dobrei A., Mihuț E	170-173
FG 15	The diversification of the sorts range of processed horticultural products with special destination	Negoita Mioara, Catana Luminia, Dinca Monica, Bibicu Miruna	174-177

FG 16	The walnut CNPC-02 the value biotip for the Păun C., semiintensive orchard	Cepoiu N., Apostol Dragoș, Cepoiu Andreea Loreta	178-181
FG 17	The behaviour in nursery of the apple varieties with Păun C., and without genetic resistance engrafting on the Chinese rootstock	Cepoiu N., Sultan Mihaela, Stanciu Iuliana, Mămularu Daniela, Voicu Florentina	182-185
FG 18	Synthesis of researches regarding the kiwi fruit Stănică Fl., (<i>Actinidia sp.</i>) propagation	Cepoiu N., Peticilă A.	186-191
FG 19	Economic efficiency of apple fruit valorisation according to quality	Stoian Elena, Chira A., Pașca I., Chira Lenuța, Popescu Gh.,	192-195

VITICULTURE AND OENOLOGY

Cod nou	Titlu	Autori	Nr. pag.
V&O 01	Study on the effect of the extraction enzyme quantity on the colour of Merlot must and wines I. Chromatic parameters evolution during maceration-fermentation process	Antoce Oana Arina	196-200
V&O 02	Study on the effect of the extraction enzyme quantity on the colour of Merlot must and wines II. Chromatic parameters evolution in the first days after fermentation	Antoce Oana Arina	201-204
V&O 03	Determination of the microbiological hygiene level in a wine production facility during winemaking campaign	Antoce Oana Arina, Dinu Laura Dorina	205-208
V&O 04	Study regarding the preferences in wine of the Romanian wine specialists	Antoce Oana Arina, Gîțoi M., Grigorică L., Nămoșanu I.	209-212
V&O 05	Characteristics of vine culture on the terraced versants	Cheregi V.	213-216
V&O06	The organic fertilization of viticultural plantations	Cheregi V.	217-220

V&O 07	Phytosanitary treatment programme at vine for Cheregi V. the year 2003	221-224
V&O 08	Research concerning the relationship between the yield quantity and quality of grapevine Dejeu L., Savu Mihaela, Comşa Mihaela, Andrei Mariana	225-228
V&O 09	Modern technologies for an ecological viticulture Dumitriu I. C., Bejan C.	229-232
V&O 10	The incidence of pre-fermentative techniques on flavour components of the Muscat Ottonel sort Heroiu Elena, Savulescu Georgeta	233-236
V&O 11	Agrobiological and technological characteristics of some new Romanian grape varieties for superior red wines Indreaş Adriana, Rădoi Florentina, Heroiu Elena	237-240
V&O 12	Personalities of the viticulture and oenology department, school builders Nămoleşanu I., Oşlobeanu M., Pomohaci N., Dejeu L.	241-244
V&O 13	The microzonation of the grape vine in the vineyard Craiova hills depending of the climate and geopedologic conditions Olteanu I., Giugea N.	245-248
V&O 14	Researches on the clonal multiplication of the <i>Vitis vinifera</i> Oprea A., Carabulea O., Talmaz Vera, Grigorescu Mihaela Victoriţa	249-252
V&O 15	Study of some decisive stimulative factors of the yeasts activity Popa A., Popa Daniela	253-256
V&O 16	Pollen size variability within some table genotypes of <i>Vitis vinifera</i> Popescu Carmen Florentina, Mărculescu M., Popescu A.	257-260
V&O 17	Contributions to the macroclimate study from viticultural centres of the Moldavian hills region Savu Georgeta Mihaela, Nămoleşanu I.	261-264
V&O 18	Achievement with <i>in vitro</i> propagation, biotechnologies for vine and other horticultural species and their commercial marketing Teodorescu Al., Marinescu Luminiţa, Vişoiu Emilia, Buciumeanu Elena, Vărzaru Iuliana, Popescu Agatha	265-268

V&O 19	Criteria and variables for the characterization of Tudorache Aurelia, the initial and functioning state of a viticultural Antoce Oana Arina, plot	Nămoloșanu I.	269-272
-------------------	---	---------------	---------

BOTANY AND PHYSIOLOGY

Cod nou	Titlu	Autori	Nr. pag.
B&P 01	Some aspects regarding the influence of the type of Burzo I., pruning and bud load on photosynthesis, transpiration Dejeu L., and respiration rates at grapevine	Comșa Mihaela, Andrei Mariana	273-276
B&P 02	Hypohidric stress impact on soybean (<i>Glycine max.</i> L. Delian Elena, Merr.) during seeds germination and seedling growth Burzo I., period	Bădulescu Liliana, Dobrescu Aurelia	277-280
B&P 03	The influence of the cultivar type on the dynamics of Dobrescu Aura, the activity of some oxydative enzymes during the Bălan Daniela vegetation period in the apple tree leaves		281-284
B&P 04	Research respecting infrared FT-IR microscopy of Mihaiescu D., vegetal tissue	Burzo I.	285-288

AGRICULTURE

Cod nou	Titlu	Autori	Nr. pag.
A 01	The influence of the forerunner plant, fertilisation Bandici Gh., level and climatic conditions on the total wet and dry Domuța C., gluten content of winter wheat seeds cultivated on Ardelean Ileana brown luvic soils in the Western Plain of Romania		289-292
A 02	Relationship between vegetal remains (roots + stub) and agrofund – crop rotation plant	Bandici Gh., Domuța C., Ileana Ardelean	293-296
	INDEX		297-299
